

Looking to buy grain for next season from your local cereal grower?

Should you have the option to purchase cereal grains from your neighbour or local grower, Advanced Feeds can take the hassle out of the whole process by taking care of the contractual agreement, freight and provide the expertise to process and precision blend your grain with a full range of minerals, additives or feed supplements. Advanced Feed can also supply grain for your dairy farm from their own suppliers.

Advanced Feeds celebrates its first year of trading under its new owners on January 20th

A successful full year behind us, we look forward to working with our existing and new clients during 2011 and into the future.

new range of Forage Balancer blends.

Advanced Feeds Forage Balancer Blends

Introducing the Forage Balancer range of feeds based on Rolled Grains and various protein sources (e.g. Canola, PK+ etc) with Mag Oxide and lime. When compared to straight PKE, Forage Balancer increases rumen digestibility, carbohydrate and protein to balance summer and autumn pastures. A cost effective alternative to PKE. Available Ex Methven and Timaru.

Why not take the opportunity to compare both the costs and benefits of Advanced Feeds processing your cereal grains against what you are currently doing on farm.

Welcome to Advanced Feeds new field sales staff

David Mills – with almost twenty years experience in ruminant nutrition both here in Mid Canterbury for the last six years, and previous to that in the UK ruminant stockfeed industry.

David Mills: Ph 027 299 8131
